

[0018] FIG. 9 is a magnified exploded view of a portion of the insert member and sensor system of FIG. 7;

[0019] FIG. 10 is a side cross-sectional view of one embodiment of a shoe incorporating the insert member of FIG. 7;

[0020] FIG. 11 is a perspective view of another embodiment of a sensor system according to aspects of the invention, for use with an article of footwear, with a sole structure of the article of footwear being depicted schematically by broken lines;

[0021] FIG. 12 is a cross-sectional view taken along lines 12-12 of FIG. 11, showing a port of the sensor system of FIG. 11 and an electronic module being received in a housing of the sensor system;

[0022] FIG. 13 is a cross-sectional view showing the port and the module of FIG. 12, with the module being inserted into the port;

[0023] FIG. 14 is a perspective view of the module shown in FIG. 12;

[0024] FIG. 15 is a rear perspective view of the module of FIG. 14;

[0025] FIG. 15A is a rear view of the module of FIG. 14;

[0026] FIG. 16 is a top view of the module of FIG. 14;

[0027] FIG. 17 is a side view of the module of FIG. 14;

[0028] FIG. 18 is a perspective view of the port of FIG. 11, showing the module received in the housing thereof;

[0029] FIG. 18A is a schematic view illustrating the assembly of an interface of the port as shown in FIG. 11;

[0030] FIG. 19 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0031] FIG. 20 is a partial cross-sectional view of the sole member of FIG. 19, with the module being connected to the port;

[0032] FIG. 21 is a perspective view of the sole member of FIG. 19, with the module connected to the port;

[0033] FIG. 22 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0034] FIG. 23 is an end view of the module of FIG. 22;

[0035] FIG. 24 is a perspective view of the sole member of FIG. 22, with the module connected to the port;

[0036] FIG. 25 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0037] FIG. 26 is a partial cross-sectional view of the sole member of FIG. 25, with the module being connected to the port;

[0038] FIG. 27 is a perspective view of the sole member of FIG. 25, with the module connected to the port;

[0039] FIG. 28 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0040] FIG. 28A is a bottom view of the module of FIG. 28;

[0041] FIG. 29 is a perspective view of the sole member of FIG. 28, with the module connected to the port;

[0042] FIG. 30 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0043] FIG. 30A is a bottom view of the module of FIG. 30;

[0044] FIG. 31 is a perspective view of the sole member of FIG. 30, with the module connected to the port;

[0045] FIG. 32 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0046] FIG. 32A is a bottom view of the module of FIG. 32;

[0047] FIG. 33 is a perspective view of the sole member of FIG. 32, with the module being connected to the port;

[0048] FIG. 34 is a perspective view of the sole member of FIG. 32, with the module connected to the port;

[0049] FIG. 35 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0050] FIG. 35A is a top view of the module of FIG. 35;

[0051] FIG. 36 is a perspective view of the sole member of FIG. 35, with the module being connected to the port;

[0052] FIG. 37 is a perspective view of the sole member of FIG. 35, with the module connected to the port;

[0053] FIG. 38 is a perspective view of another embodiment of a sole member of an article of footwear, having a port and an electronic module configured for connection to the port;

[0054] FIG. 38A is a top view of the module of FIG. 38;

[0055] FIG. 39 is a perspective view of the sole member of FIG. 38, with the module connected to the port;

[0056] FIG. 40 is a partial cross-sectional view of a portion of another embodiment of a sole structure for an article of footwear, having a port and an electronic module configured for connection to the port;

[0057] FIG. 41 is a partial cross-sectional view of a portion of another embodiment of a sole structure for an article of footwear, having a port and an electronic module configured for connection to the port;

[0058] FIG. 42 is a partial cross-sectional view of the module of FIG. 41;

[0059] FIG. 43 is a partial cross-sectional view of a portion of another embodiment of a sole structure for an article of footwear, having a port and an electronic module configured for connection to the port;

[0060] FIG. 44 is a partial cross-sectional view of the a portion of the port of FIG. 43;

[0061] FIG. 45 is a partial cross-sectional view of a portion of another embodiment of an article of footwear, having a port and an electronic module configured for connection to the port;

[0062] FIG. 46 is a partial cross-sectional view of the portion of the article of footwear of FIG. 45, with the module connected to the port;

[0063] FIG. 46A is a magnified partial cross-sectional view of the port and the module of FIG. 45;

[0064] FIG. 47 is a partial cross-sectional view of a portion of another embodiment of an article of footwear, having a port and an electronic module configured for connection to the port;

[0065] FIG. 48 is a partial cross-sectional view of the portion of the article of footwear of FIG. 47, with the module connected to the port;

[0066] FIG. 49 is a partial cross-sectional view of a portion of another embodiment of an article of footwear, having a port and an electronic module configured for connection to the port;
